INTERNATIONAL TYPE APPROVAL – HOMOLOGATION – CERTIFICATION SERVICES

We offer a complete handling for the approval of your product in Guyana. In order to successfully release a product worldwide – or in a certain country – you shall obtain appropriate approvals. The fundamental approval requirements may vary from country to country. Both our well founded know-how and our widespread international network are your significant advantage when it comes to the Type Approval of your product.

LABELING SUPPORT

Each and every product is subject to marking requirements. The label regulations often differ from country to country. This is where we support you with all necessary information and the specific requirements for national markings regarding Type Approval in Guyana. Furthermore, we assist you from label design via label draft through to the final label application. This will allow you more room for the essential: your product.

ACTIVE RESEARCH

You are developing a new product and wish to be better safe than sorry regarding the Type Approval in Guyana? A smooth release of your product is based on your know-how in development and production, but also on the product's conformity with the local admission requirements. Our team considers all relevant sources for your proper market release, already during the development of your product and thus supports you the entire time in a cooperative and goal-oriented manner.
